

## **PRECAUTIONS TAKEN TO PROVIDE A SAFE ENVIRONMENT AT SCHOOL**

- ❖ The entire school building is being sanitized twice everyday using 1% solution of sodium Hypochlorite.
- ❖ All work surfaces, furniture, switches, door knobs, handles etc. are being sanitized.
- ❖ Hands free sanitizers have been installed at the gate, as well as in front of the offices, sick room and classrooms.
- ❖ Isolation Room: If any person starts to feel sick, he/she will immediately be taken to the Isolation Room for checkup and further course of action.
- ❖ All furniture has been arranged in the classrooms and other areas at a distance of 6 feet with visible demarcation. A maximum of only 20 students are accommodated in a classroom.
- ❖ Movement of people in the corridors, and stair case has been strictly regulated.
- ❖ Visible markings have been provided for physical distancing in the corridors, entrance of the school, courtyards etc.
- ❖ Toilets: At any point of time, only one student is allowed to enter the toilet. All the toilets are being sanitized.
- ❖ Drinking Water: Only one person can use the drinking water area at any point of time. The water storage tanks have been cleaned.
- ❖ All students and staff are allowed to enter the school premises after having their temperature scanned at the gate. No individual with even the slightest symptoms of COVID-19 is allowed to enter the school premises.(Headache, fever, cough, loss of smell, irritation in throat, difficulty in breathing).
- ❖ The school is equipped with an adequate supply of thermal guns, pulse oximeters and face shields to provide a safe environment.
- ❖ **The following items have also been made available:**
  - 1% sodium hypochlorite solutions in each staffroom and office space.
  - Soap and running water is available in all the toilets.
  - Covered dustbins/trashcans for proper disposal of waste.
- ❖ Posters/standees on preventive measures about COVID-19 have been displayed prominently in all areas of the school.
- ❖ All staff has been trained regarding the protocols to be followed while they are in school.
- ❖ No visitors are allowed during the school hours, unless there is an emergency.
- ❖ As a precautionary measures canteen will not be operational in school.
- ❖ Our School nurse has a critical role to play in tackling coronavirus. She communicates key information from health authorities to the school community. She provides factual information to help reduce stigma, to assess students & staff for illness, to educate school communities about those non prescription interventions that are so essential to health that we should be doing all the time—like washing your hands for 20 seconds, covering coughs and sneezes, cleaning high-touch surfaces. The school nurse also visits each classroom and does random checks of the students and staff for any possible symptoms . She checks attendance and maintains records of long absenteeism ( to find out if any child or staff has contracted coronavirus).The school also has a tie up with a nearby hospital for dealing with any kind of emergency.
- ❖ With all the precautions in place RBMHS has remained safe from COVID-19 since the Rajasthan Government has opened up schools from the 18th of January 2021. We have successfully conducted offline classes for classes VI and above . The School Management & staff is committed to the safety of the children and will work relentlessly to provide a protected school environment for the children. The school feels grateful for all the support from the parents and we need to work together and do as much as possible to make our world healthier and free from COVID-19.

❖ The following checklist is meant to ensure that all elements of care and protection are addressed.

### **CHECKLIST FOR PARENTS**

<b>S.No.</b>	<b>Task</b>
1.	Regular monitoring of child's health.
